

Placement Rate Methodology for Gainful Employment Disclosure

Placement Rates were calculated as follows:

Total number of graduates who are currently employed

Divided by the

Total number of graduates from the program

Graduates who offered the following responses are **excluded** from this rate:

- In School = Graduate decided to continue his/her education beyond the certificate received
- No response = Graduate did not respond to the survey
- Military = Graduate is actively serving in the US Military
- Incarcerated
- Experienced debilitating health conditions

This information is based on the job placement rate methodology explanation located at:
